## STREET FESTIVAL

#### By Susan Keller

Cortland Avenue can almost always provide a friendly face, a sound bargain or something good to eat for the residents of Bernal Heights. But on Saturday, September 29, Cortland Avenue did more than just offer these pleasures, it practically overflowed with them, in the blocks between Andover and Gates, site of the Fifth Annual Bernal Heights Cultural and Arts Street Festival.

All the for-profit booths made money and the crowd of 800-1,000 which roamed Cortland Avenue from 10 to 6 p.m. was about as big as expected.

While every aspect of the Fair did not go over flawlessly, the event was great fun for those who attended and reportedly successful for those who planned it.

The Fair was well monitored thanks to the presence of the entire Bernal Heights police station and the hard work of the security volunteers. One rowdy incident was said to have been easily quelled and another was prevented from happening because of the quick work of the officers, said Gloria Ronas, booth coordinator of the Fair.

The crowd, however, did not seem to care much about the police officers, the number of people or the amount of profit. The order of the day for most fair-goers was warm sunshine, loud, pulsating music, good food and plenty of information.

"That is what I like about the Fair," said Bertha Amaro, BHCF Executive Director. "So many different groups are represented. You can learn a lot and have a lot of fun."

At the head of the Fair, the bandstands provided a steady stream of live music, announcements and encouragement from the crowd. Groups as diverse as 'Cesar's Latin All Stars' or the heavy metal 'Eclipse'

or the rapping funk of the 'Legionnaires' pumped a lively beat into the air as people gathered on the library steps and on both sides of the street to dance and to clap.

At the other end of the festival, the independent DJs of Gemini Productions were drawing their own crowd of toe-tappers and cat callers. The two DJs definitely had a handle on the fast-talking, however, as they slickly rapped their way in and out of many a dance hit. They even grabbed attention with lesser known songs due to their smooth speaking.

In between what could be called these musical endpieces of the Festival, people were meeting, eating, buying and learning. The ethnic diversity and political vivacity of Bernal Heights was evident in all the activity. Foods included lumpias, tacos, ribs, and hotdogs with sauerkraut. The merchandise came from El Salvador, Ecuador and Peru, just to name a few countries. A German man had photographed his neighborhood in the Mission and was selling postcards he had made from the photos. Another man made toys out of wood, and one woman was selling trinkets she had made from stained glass.

In the midst of all this consumption, the nonprofit booths did their best to teach, inform and persuade people about their activities. Several people were milling through the crowd to register voters or distribute leaflets. Several people talked about their issues while they served food. One man was even running an anti-draft campaign from an ironing board!

Probably the most effective persuasion was occurring at the dunking booth run by the Bernal Heights Youth Council. There the carnival-type barkers convinced athletes of all shapes and sizes to try their hand at tossing a softball and dunking the 'sitting duck' in their booth.

#### **Accident Insurance**

Beginning July 1, 1985, California motorists will have to carry cards or other proof that the cars they are driving are insured.

Gov. Deukmejian announced that he has signed a bill that could subject motorists who cannot provide proof of car insurance to fines of \$100 to \$250.

Current state law requires motorists to have car insurance, but the law is not enforced until an accident happens.

#### on the Move

- ° Every 4 seconds someone is injured in an accident
- ° Every 6 minutes someone dies in an accident In 1982 alone:
  - ° 93,000 fatal accidents occurred
- ° 46,000 were fatal motor vehicle accidents -- the No. 1 cause of accidental death
- ° 8,600 were auto/pedestrian accidental deaths
- ° Accidents were the leading cause of death among people age 1 to 38

The National Safety Council's Accident Facts, 1983

#### **HEALTH CENTER NO. 3**

The next glaucoma testing clinic will be held Saturday, Dec. 8, 8:15-10:15 am at District Health Center #3, 1525 Silver Ave, 468-3664. There is a \$1.00 fee.

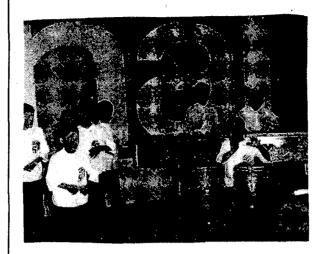

Glaucoma is a leading cause of blindness in people over the age of 35. Its onset is gradual. A person may be aware of only slight changes in vision. To prevent progress toward blindness, early detection and prompt treatment of glaucoma are necessary. The test is simple, quick, and painless.

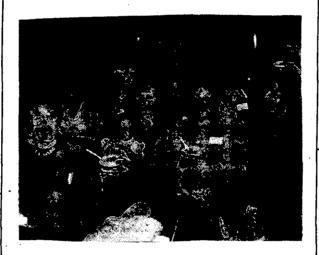

#### HEPATITIS

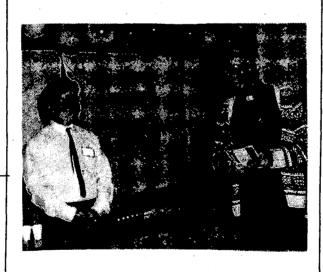

Dr. James Maynard, from the Centers for Disease Control in Atlanta, GA, said that the number of persons listed as hepatitis-B carriers is increasing at the rate of 2,000 per vears in Canada and 20,000 in the United States. It is estimated that worldwide about 200 million people are carriers. Chronic hepatitis is the cause of 80 percent of the world's liver cancer cases according to Dr. Maynard, who adds: It is second only to cigarette smoking as a major, known; cancer-causing agent."

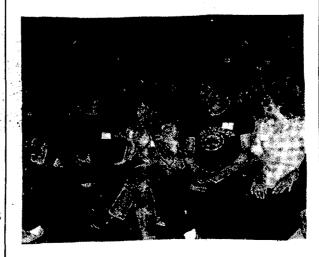

Dr. Maynard says that this hepatitis is largely spread through sexual relations, with the risk increasing in direct relation to the number of sex partners. He also asserts that every year the individual homosexual runs a 25 percent risk of becoming infected. By the age ( f 40, studies show, 85 percent of homosexuals have been infected.

#### Resources

Listed here are several community resources for people seeking help with cocaine-related problems.

Some are free and others involve

a fee.

Cocaine Hot Line. Phone (800) COCAINE. This national, 24-hour toll free hot line is a privately funded service of Fair Oaks Psychiatric Hospital in New Jersey. Crisis counseling is provided, but its main purpose is to give referrals to treatment centers in your area.

Cokenders. Phone (415) 652-1772. This residential treatment center in a restored old health spa in Wilbur Hot Springs (Colusa County), offers an intensive, five-day holistic treatment program. No drugs are allowed. Clients pay \$1,675 for the program.

Haight-Ashbury Free Detoxification Clinic, 529 Clayton, San Francisco. 621-2014. Although this outpatient clinic treats all types of substance abuse, there is a specific treatment program for those with a cocaine problem.

#### **Sulfites Warning**

A federal advisory panel recommended in October that a widely used food preservative (linked to four deaths and allergic reactions in some asthmatics) be identified on package labels and in restaurant notices, pending completion of additional studies, an FDA report concluded. Appropriate identification of foods containing sulfiting agents should be instituted to enable those sensitive to the substances to avoid them. Allergic reactions to sulfiting agents include severe wheezing, extreme shortness of breath and sometimes loss of consciousness and coma.

The FDA also has made a similar proposal for warning notices in restaurants and grocery stores, and warning labels on packaged foods contain-

The most commonly used sulfites are sulfur dioxide, sodium bisulfite, potassium metabisulfite and sodium metabisulfite. Sodium sulfite and potassium bisulfite, which are less common, also are sulfiting agents.

Foods commonly treated with sulfites include:

Pizza

° Pasta

° Instant Tea

° Coffee ° Cookies

° Cake mixes

- ° Sugar
- ° Pie dough ° Gelatin
- ° Snack foods
- ° Beer and wine
- ° Shrimp and other seafood
- Canned and bottled fruit juices
- ° Canned, frozen and dried vegetables
- ° Ginger ale and colas
- ° Some drugs also contain sulfites.

## Neighborhood Center Celebrates Anniversary By Susan Keller

Roberto Hernandez, Director of the Bernal Heights Neighborhood Center, said he wanted to make the Center's second annual Open House "something exciting," something "different from the usual meetings, counseling and everyday activities of the Center."

From the time the Center's doors opened at noon on Saturday (October 27) until they closed at five, Roberto could be seen in suit and tie, running from the door to the microphone to any one of several groups of volunteers. As over 800 people poured into the Neighborhood Center, it seemed Roberto was going to deliver an exciting day singlehandedly.

Actually, he was just one of many who helped provide the food, entertainment and planning which made the Open House a success.

Neighborhood people were drawn into the Center by the delicious 'finger food' which was prepared and donated by volunteers. The 'West Wing Volunteers' worked especially hard in the kitchen to make sure all 800 people received some lunch.

After eating, those who stayed in the Center had the chance to see the break dancing, Hawaiian dancing and singing of fourth, fifth, and sixth graders from Paul Revere Elementary School. Judy Drummond, a teacher at Paul Revere and a community activist, introduced and directed the children's show.

Senior citizens who meet regularly at the Center were helping out everywhere: they sold raffle tickets, served lunch and provided entertainment. John Castiglia and his friend, Larry were not shy about singing and playing some of their favorite songs. And later the two led everyone in singing "Happy Birthday" to Father James O'Malley of St. Kevin's Church.

Perhaps the most moving celebration of the afternoong came when the Hogar del Nino, a group of orphans from Nicaragua, sang and danced. Although requests to adopt some of the children on the spot could not be honored, those at the Open House did contribute \$280 to the young people's cause and welfare. Other entertainment included the "Salsa Angels" and the "Legion of the Doom" rappers.

Grand Prize winner in the raffle was Ruth Stone (a color TV), Wanon Antiblon won a trip to Reno, and Salina Vez won a 10-speed bicycle. The raffle raised \$1500 for the Neighborhood Center.

Roberto said the day was a great chance to let the people at Bernal Heights "show their talents" and find out "what's going on" at the Neighborhood Center. He and the many volunteers supporting the Open House set good examples on both scores.

Among the prizes were:
Color TV, Reno Trip (2), 10 Speed
Bicycle, Vacuum Cleaner, Groceries,
Cable Car, Digital Clock, Marine
World Tickets (2), Pan Set, World
Clock, Records, Break Dance Tickets,
Legal Services, Royal Beauty Supply,

Among the volunteers who donated their hours to help in the Open House were the following:
Marion Barr was honored and received a gift of \$150.00; Araceli Matus, Linda Kennedy, Tina Allen, Judy Gong, Naomi de Gracia, Mary Foy, Paul Kreft, Ron Bermudez, Judy Drummond and Eric Recinos.

Special thanks to Ricky Walker and International Sound Productions who provided the sound systems to Neighborhood Arts for the stage, and to the main organizers of the Fair: Roberto Hernandez, Yolanda Yakuez, Larry Peoples, Gloria Ronas, Raymond Mason, Arthur Hopkins, and Mike Ramirez. Money sponsors included Mayor's Youth Bowl Fund (\$1,000), Anheuser-Busch (\$1,000) and Northern California Grant Makers (\$950).

#### ADULT SEXUAL ASSAULT and CHILD SEXUAL ABUSE: A FEW FACTS

"Sexual Assault -- What You Can Do About It" is the title of a program for parents and children, through the S.F. Public Library. Wednesday, Nov. 28, 7:00 pm. at Chinatown Branch, 1135 Powell, for parents and children. Adults only, 2 pm. Saturday, December 8.

Este es el nombre del programa para padres y hijos a traves de la Biblioteca Public de San Francisco. Este programa esta patrocinado por la Comision de San Francisco para la Protecion de la Mujer (S.F. Commission on the Status of Women). La proxima exibicion y lectura sera el Miercoles, Nov. 28, 7 pm. en el Chinatown Branch, 1135 Powell, para padres Y hijos. Adultos solamente, 2 pm, Sabado, Dec. 8.

- ° Sexual assault is an act of power and violence expressed through sexual aggression.
- ° One out of four women is sexually assaulted sometime in her life.
- Sexual assaults do not occur because of some men lack sexual outlets. Many assailants have access to sex; what they want to express is power, dominance and control.
- o Most men who rape other males conisder themselves to be heterosexual.
- ° Most rapists plan their attacks. Most sexual assaults are not the
- result of sudden, overwhelming impulses.
  Only a small percentage of sexual assaults occur in open spaces. Over half of the incidents take place at the victim's home or some other residence.
- Anyone can be sexually assaulted, regardless of race, age, sex, physical appearance, or economic class. The youngest known victim in San Francisco was 3 months old; the oldest, 95 years.
- ° The victim of sexual assault is not to blame. It is <u>never</u> the victim's fault. The offender is responsible for this act.
- <sup>c</sup> Most assaults occur between people who are <u>not</u> strangers. An estimated 85% of child molesters are known to the child or the child's family. Over half of adult women victims are acquainted with their assailants.
- ° Children don't lie about sexual abuse. It is important to believe them when they report it, even if the offender is someone you thought you could trust.
- Adult women do not falsely report assaults "to get back at a man." Studies and FBI statistics show the false report rate for sexual assault is the same as the rate for all felony reports -- 1-3%.
- ° Child sexual abuse is rarely violent. The offender often uses subtle manipulations, such as offers of friendship, toys, or candy, to achieve his aims.
- ° Sexual assaults are committed by ordinary people of all races, ethnic groups, economic classes, and ages. Assaults usually occur between people of the same race and economic class.
- Sexual assault is a serious problem. You can work to make yourself and your children safer and better able to react if an assault occurs. Read the safety tips in the library display and contact the community groups listed for more information.

EDITOR:

I wish to register with you my very strong opposition to the recent decision to permit St. Luke's Hospital to erect large neon sign of advertisement on top and on the side of the building. I cannot accept the statement that such was required to identify the building to the local inhabitants.

I have lived in my house, with a lovely view of San Francisco, for 27 years -- since before Bay View Federal Savings and Loan erected their large building adorned with neon advertisement. In fact, I was hoping to see that sign disappear from my view prior to my departure from this world. Now, instead, even worse is a possibility. My visual tranquility is about to be shattered further by an even more gross visual infringement.

If such is permitted in this situation, how can it be denied to all other facilities that make a similar claim in the future? The city horizon looks so great now -- must we again go through the nonsense of visual clutter that we have all so long fought to eliminate? Please reconsider this unfair decision; it is not yet too late.

#### Win a Million!

° The first lottery tickets must go on sale no later than March 21, 1985. No state funds may be used for the lottery except a temporary \$16.5 million line of credit for start-up costs.

° Half of all proceeds will be returned to players as prizes. Up to 16 percent of proceeds may be used to cover administrative costs.

At least 34 percent of the revenue will go to state schools, colleges and universities, all to be used for education and not con-truction, property acquisition or research.

° A state lottery commission will consist of five people appointed by the governor and confirmed by the state Senate. No more than three members shall be members of the same political party. The Commission will determine - with certain exceptions -- the form it will take, the number and types of prizes and the method of determining winners.

° Players must be 18 or older.
° Annual ticket sales are estimated at \$1.25-\$1.7 billion, with revenue to the schools estimated at
